Finance Business Partner (Philippines)

Deadline:

Job description

Scan Global Logistics is a Nordic based full-service global freight forwarding provider with more than 3,000 employees working out of +100 offices Americas, Europe, Africa and Asia-Pacific, specializing in complex logistics solutions. SGL offers customers a wide range of global transportation and logistics supply chain solutions with a complete coverage on air, sea and overland transportation.

Together we have pinpointed four virtues that we live by and ensure that Scan Global Logistics is a great and interesting place to work. **Respect, Entrepreneurship, Integrity** and **Fun.**

Position Overview

The Finance Business Partner is a key strategic role within the finance team, responsible for providing financial insight, analysis, and guidance to support decision-making across the organization. This role bridges the gap between finance and operational teams, ensuring alignment with the company's strategic goals and objectives.

- Reporting to the Regional CFO Asia
- Work closely to Regional and Group Finance (based in Denmark) and SGL stakeholders to ensure company's best accounting practices

Key Responsibilities

1. Financial Planning & Analysis

- Develop, analyze, and present financial forecasts, budgets, and reports.
- Conduct variance analysis to monitor performance against budget and provide actionable insights.
- Support strategic planning processes with financial data and trend analysis.

2. Business Partnering

- Collaborate with department heads and operational teams to align financial strategies with business objectives.
- Act as a trusted advisor by providing financial guidance and influencing decision-making.
- Build strong relationships across departments to foster collaboration and understanding of financial impacts.

3. Performance Management

- Monitor key performance indicators (KPIs) and operational metrics to drive business improvements.
- Identify areas of financial risk and opportunity within the business.
- Develop and implement strategies to optimize financial performance and cost management.

4. Reporting & Compliance

- Prepare accurate and timely financial reports for internal and external stakeholders.
- Ensure compliance with regulatory requirements and internal financial policies.
- Assist in audit processes and provide necessary documentation and support.

5. Continuous Improvement

- Identify opportunities for process improvements in financial management and reporting.
- Implement tools and systems to enhance efficiency and accuracy in financial analysis.
- Stay updated on industry trends, regulatory changes, and best practices in finance.

Qualifications & Skills

Essential:

- Bachelor's degree in Finance, Accounting, or a related field (MBA/CPA preferred).
- Strong analytical and problem-solving skills.
